In the event of a catastrophic failure or malfunction of the electronic target system, the Match Director will reserve the right to make a decision to either delay the match or to switch over to conventional targets and pit duty. All participants are strongly encouraged to wear eye protection on the firing line. Ear protection is mandatory on the firing line plus in the pits eye protection & ear protection is compulsory. A brimmed hat is suggested in the pits while in operation.

Every competitor is expected to have a confirmed zero before the competition begins. Each shooter is responsible for every round leaving their rifle. Once the Match starts, a shot that cannot be accounted for may be grounds to pull the competitor from the line, even during the sighting period, at the discretion of the Chief Range Officer.

Scorers need to ensure the shooter has his correct- zero on the rifle for the specific distance being shot. During the unlimited sighting shot interval the scorer may coach the shooter e.g. watch the bullet path down range and offer corrections. **The scorer must account for all rounds fired.** If a non-visible miss off the target cannot be attributed to a cross fire or target malfunction, then the scorer must inform the line officer. The Chief Range Officer will have the authority to remove or disqualify the competitor for the rest of the match.

If you develop a sight malfunction, the rules give you time to repair it. The line officer may insist you go to the 50 yard practice range, or the 200yds sight in range, and re-zero before he allows you to resume shooting at the High Power range. If you cannot resume with your relay in the rule's time available, the penalty described in

2020 FSSA ATC State Championships

the rules will be followed. We will not allow unsafe practices or non-visible misses.

The 600 yard line is under cover. All positions will be shaded. Spiked legs for scope stands or front rifle rests are not permitted on the Astro-Turf. All muzzles must be across the white safety line. All other equipment shall be behind the white safety line. NRA rule 9.9 will also be enforced.

The scorecards and the Statistical Officer's report are the official data. Match updates and final score results will be posted at the pole barn and the official challenge period of 30 min begins once they are posted. It is the competitor's responsibility to verify these scores during these challenge period and to report any discrepancies to stats officials.

Coaching is prohibited during all individual matches during shots for record (Rule 9.10) with exception during unlimited sighters match segment (Rule 9.2(b)) or for juniors with pre-arranged expanded classifications status provided by match sponsor(s) under rule 19.4.1 only.

At the time of registration, you must identify any cases of equipment sharing, need for help in the pits, junior shooters needing an adult, etc. The Chief Range Officer and the Statistical Officer will do what they can to accommodate/balance the requests via squadding. Total satisfaction is not guaranteed.
